4. Start, Finish & Route

- 4.1 Event Start & Finish locations will be notified in the event supplementary Competition Rules, and the event organisers should try to start & finish at the same location, to allow for navigators /marshals travelling separately to leave their vehicles and return to them later without any additional travel.
- 4.2 Organisers should aim to start the events close to public convenience facilities and include a short non-competitive section if necessary to get to the start of the route.
- 4.3 The events will use OS Landranger 1:50k scale maps, typically 185, 186, 196, 197, or any combination of these maps. The exact maps required will be notified in the event supplementary Competition Rules.
- 4.4 The route will use roads that are suitable for a normal road car and will look to avoid any damaging terrain as far as reasonably practicable. White / unsurfaced roads should only be used when specifically told to do so in the route instructions.
- 4.5 The route will be defined using a route card navigational handouts/ navigational instructions:

4.5.1 **Novice & Semi Expert Navigators**, the following information will be given:

- Grid Reference for the start of that section,
- Grid Reference for the end of that section,
- Direction of approach for the next Control (if navigation could take you in either direction or if the organiser decides it is required for safety),
- Distance to the next control,
- Type of roads to be used/considered in plotting,
- **A full written instruction of what to do with the route information, (i.e. Cross the following grid lines in order/ pass through the following spot heights in order/ visit the following grid references taking the shortest route etc.)**
- The route info (Clue) and any special instructions.

These might include:

Grid References / Grid Squares to visit in order,

Grid lines to cross in order,

Tulip Diagrams of junctions to follow in order

Spot Heights or Map Features to pass,

Herringbone with arrow,

Map Sections,

Direction of departure from grid squares T/B/L/R or N/S/W/E

Directions at junctions: TL (Turn Left) TR (Turn Right) SO (Straight on)

Novice Navigators – Will be issued full route information at signing on / MTC0

14. Controls & Route Checks

- 14.1 Code boards consisting of black letters and/or numbers on a white background will be placed along the route and act as a route check; you must find all the code boards in the correct order. Penalties will be awarded for failing to record code boards on the time card. Code boards must be recorded in ink on the time card. All manned controls where competitors are required to stop will have a board approximately 50m ahead of the control in the direction of approach, which will denote the start of the control area. They must be visited in the order indicated on the route card. Any controls visited out of order will be deemed not to have been visited. Any control that is unmanned (with the exception of secret checks) will be replaced by a code board. All 'Secret checks' where competitors are required to stop will have a 'passage check' board approximately 50m ahead of the control. Controls will open 10 minutes before the due time of the first car and close at the scheduled time of the last car plus the maximum permitted lateness for that control, which will usually be 30 minutes. A driver may enter a control at any time and await their due time.

15. Timing

- 15.1 Timing is measured to the last whole minute i.e. 23:56:01 and 23:56:59 will both be recorded as 23:56. Competitors will know their start time, and the time allowed for each section will be specified in the time card/road book. A competitor's due time at each control can be determined from the individual time schedule. A competitor who is running late can only make up time in the sections specified on the time card. Competitors will be timed as they present their time card. Competitors late at one control may be an equivalent amount of time late at succeeding controls without incurring further time penalties, providing they do not exceed their maximum lateness allowance.

16. Insurance

- 16.1 Vehicles must have insurance in place which provides Third Party Liability cover that complies with the Road Traffic Act. This can be either, by extending an existing motor policy to cover the event, or, by purchasing additional cover as an adjunct to an existing motor policy. If a competitor uses an extension to an existing policy, they will be required to sign a declaration that the cover complies with the requirements of the road traffic act. Any responsibility for a fraudulent or misleading declaration about existing cover lies solely with the competitor. If a competitor wishes to purchase additional cover via the organisers, then they can do so prior to the event, details will be included in the supplementary Competition Rules.

17. Driving Standards Observer (DSO)

- 17.1 Driving standards will be monitored. All marshals, named officials or the Driving Standards Observer have the power to disqualify any competitor generating excessive engine or tyre noise or inconsiderate driving. Observers may be situated in quiet zones/sensitive areas and Give Way/Stop junctions.

18. Judges of Fact

- 18.1 All officials who have signed on will be deemed Judges of Fact.

19. Public Relations

- 19.1 The National Competition Rules do not currently require organisers to notify residents / landowners along the route that an event will be passing. It is therefore reasonable to expect that members of the public along the route will not be aware of the event and may be alerted by an abnormal amount of traffic passing nearby.
- 19.2 The organiser should provide crews with a 'To whom it may concern' letter, that can be issued to members of the public if required. It is important that crews understand their rights to traverse the public highway and understand the Law relating to the same.

19.2.1 Example PR Letter:

To whom it may concern,

The bearer of this letter is participating in a navigation event organised by Southsea Motor Club in accordance with the Motor Vehicles (Competitions and Trials) Regulations and the National Competition Rules of the Royal Automobile Club, Motorsports UK Ltd.

*Motor rallies and trials are permitted through the provisions contained in **Section 1, of the Road Traffic Act 1988** and detailed in the **Motor Vehicles (Competitions and Trials) Regulations**.*

The relevant Police Authorities are aware of the event.

Please allow the bearer to proceed without let or hindrance.

If you have any concerns, I'll be grateful if you get in touch with me to discuss them, my contact details are below.

Yours faithfully

O.R.Ganiser

Email@email.com

- 19.3 Crews must at all times avoid bringing the sport or club into disrepute, by maintaining high standards of rally driving, observing speed limits, obeying quiet/ Dip zones, and avoiding confrontation with members of the public.
